

YOUR BABY TREASURES™ TIME CAPSULE

How to Preserve Lasting Memories from Baby's First Year

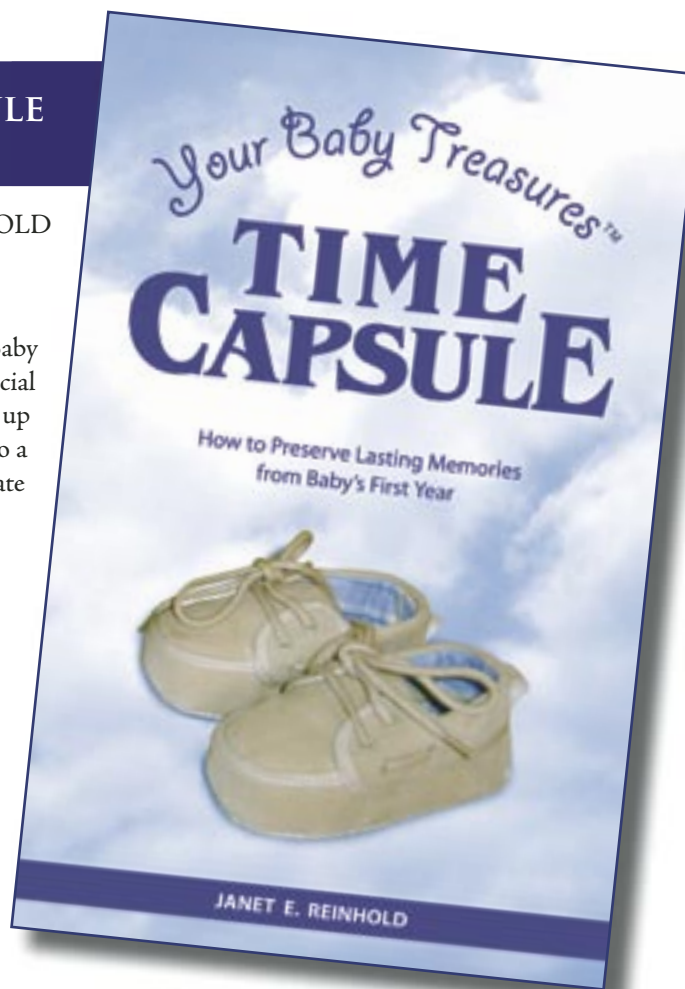

by JANET E. REINHOLD

What do you do with a 20-year old belly button?

There are always a few things that Mom can't part with when Baby outgrows them. *Your Baby Treasures™ Time Capsule* proposes a special storage project to show how to keep Baby's items meaningfully for up to 20 years or more. After gathering the items, Mom places them into a time capsule, seals it, and stores it until Baby is old enough to appreciate the collectible gifts saved just for him.

You will discover:

- Why some papers crumble over time and others stay nice
- What makes a photo fade and what you can do to save it
- How to keep baby clothes nice for years
- Why you can store a lock of hair but not a piece of cake
- Why things need proper enclosures when stored together
- What to consider when storing electronic media

This Time Capsule memory project shares archival ideas for keeping precious artifacts for 20+ years. It's a gift the child will enjoy when he's older.

Janet Reinhold has over 25 years of education and experience with long term storage of artifacts and memorabilia. Mrs. Reinhold has preserved over 1500 time capsules for customers as varied as Heinz, Disneyland, Lockheed, and the Girl Scouts of America as well as hundreds of libraries, schools, historical societies and government agencies.

"This book is particularly strong with the author's practical suggestions on how to preserve artifacts. I know of no better book on the subject of Baby's Time Capsules and how to preserve lasting memories from an infant's first year."

*--Paul Stephen Hudson, Ph.D.
International Time Capsule Society*
